Dashboard Insights

Based on the dashboard analysis, the major findings are:

Overall churn rate is approximately 26.5%.

Month-to-month customers have the highest churn rate, approximately 42.7%.

Customers with shorter tenure are more likely to churn.

Churned customers have higher average monthly charges than retained customers.

Fiber optic customers have a relatively high churn rate, approximately 41.9%.

Electronic check customers have the highest churn rate among payment methods, approximately 45.3%.

Customers with **longer-term contracts have much lower churn rates.**
